

Online addiction treatment

Bison Health provides online, outpatient, addiction treatment across Washington state. This program is for adults who feel drugs or alcohol have taken too much control and want to build a more stable, present life for themselves and the people who depend on them.

Recovery goes beyond therapy. We help navigate real-world needs such as:

- Help finding stable housing
- Help finding a job and getting ready to work
- Help applying for benefits (ABD, SNAP, etc.)
- Help getting an ID and other important documents

Why Bison Health?

- **Online from home**, no driving or waiting rooms
- **Flexible schedules** so you can keep your job and responsibilities
- **Court-approved treatment** that meets program requirements
- **Real help with life stuff** like housing, jobs, IDs, and benefits
- **Master's-level clinicians** who take the time to get to know you

We accept insurance plans

Applying is quick and can be completed by the client, a family member, a case manager, attorney, or support person.

Our Online Services

Intensive Outpatient Program (IOP)

Intensive Outpatient Program (IOP) is for people who need more support than once weekly visits. You will attend structured group and individual sessions several days each week while still living at home.

Court ordered / Deferred prosecution

For those who are court-ordered or in deferred prosecution, our program meets court requirements and includes needed reports and documentation.

Case Management

Case management is a core part of our program. We help with real-life needs like stable housing, finding a job, getting an ID, and applying for benefits. Our clinicians keep caseloads small so they have time to sit with you, make calls together, and follow up—so you're not left trying to figure everything out on your own.

Assessments

Our clinicians conduct thorough assessments to determine the most appropriate level of care using the ASAM criteria.
